

DESCRIPTION:

MicroKleen® Spray & Equipment Cleaner AD1-919 is a pure grade of Isopropyl Alcohol (99% anhydrous). It is a flammable liquid and should be stored away from any possible sources of ignition, including pilot lights, electrical circuit boxes, electrical wiring, etc.

DO NOT SMOKE when working with MicroKleen® AD1-919 (Pure Isopropyl Alcohol – anhydrous grade).

DIRECTIONS FOR USE:

MicroKleen® Spray & Equipment Cleaner AD1-919 is used to clean and/or flush application tools and spray equipment following the installation of Adsil's MicroGuard® or MicroGuard1™ protective treatment.

MicroKleen® AD1-919 can also be used to clean up drips, spills and over spray before the MicroGuard® or MicroGuard1™ product dry to touch. To clean up drips, spills and over-spray, saturate clean cotton cloths with AD1-919 and wipe up before product dries. Always dispose of alcohol-saturated cloths in a safe and proper manner.

JOB SITE SAFETY:

Always wear safety glasses and latex gloves when working with MicroKleen® AD1-919. Always read specific label cautions and SDS before working with this Adsil product. Always have SDS on file and available at the job site. Keep a fire extinguisher within easy access of the job site.

SITE CONTAINMENT:

Disposal of collected product, residues and clean up materials may be governmentally regulated. Observe all applicable local, state, and federal waste management regulations pursuant to the use of MicroKleen® Spray & Equipment Cleaner AD1-919.

Wipe up, mop up or soak up with absorbent material any spills of MicroKleen® Spray & Equipment Cleaner AD1-919. Collect and hold for proper disposal.

For large industrial or shipping spills contact INFOTRAC for further instructions:
